

Dennis Ambrogi's Artist Statement

The themes of "Timeless Relics" and "Ritual Home Furnishings" are those that I continue to find throughout my life and work.

After years spent collecting items that I planned on eventually including within my artistic practice, I found that the time had come to start creating. From this place a body of work emerged that encompasses my life-long interests in history, textiles, art philosophy, psychology, enlightenment, and many other ideas.

These creations are multi-dimensional illustrations of the textile of my life. They are an interweaving of past, present and future.
